## **Material and technical base**

603 A Biology Laboratory  
607A Ecology Room  
611B Chemistry Laboratory  
1102A Department of Natural Sciences and Sports  
No. 1 "Game Hall"  
No. 2 "Gymnastics Hall"  
No. 3 "Wrestling Hall"  
Swimming Pool  
1101A Basic Military Training Auditorium  
1103A Multimedia Room  
1102 A Educational and Methodological Room "Physical Education and Sports"  
1104 Room "Physical Education and Sports"

At the Kyzylorda University "Bolashak" there is an educational field and health center "Astaukol", as well as an agrobiological and scientific-experimental site "Balzhansai", the area of which is 21 and 90 hectares. On the territory of the agrobiological and scientific-experimental site "Balzhansai" there is a special laboratory, the area of which is 90 m<sup>2</sup>, for conducting direct biometric analyses of collected and freshly harvested materials and preparing a collection of stheniums (herbarium) and insects (dummies) for the laboratory biology room, necessary for conducting laboratory and scientific research work in the fall-winter-spring, in accordance with the curriculum. At the Kyzylorda University "Bolashak" there is a sports complex for educational and training classes of students of 1-4 courses, the complex is equipped with a swimming pool and halls (games, gymnastics, wrestling, tennis). It is planned to open sports sections for the following sports:

- Football
- Volleyball
- Fitness
- Basketball
- Swimming

1-4 courses, the complex is equipped with a swimming pool, halls (games, gymnastics, wrestling, tennis).

It is planned to open sports sections in the following sports:

- Football
- Volleyball
- Fitness
- Basketball
- Swimming

## **Educational and methodical work**

- Kazakh Scientific Research Institute risaim.I.Zhakaeva.
- All Russian Research Institute of Animal Husbandry (Moscow)
- All Russian Research Institute of Meat Cattle Breeding (Orenburg)
- Kazakh Research Institute of Animal Husbandry, Forage Production and Pastures (Almaty)
- S.Seifullin Eurasian Agrarian University (Astana)
- West Kazakhstan Agrarian and Technical University. Zhangerkhana (Uralsk)
- Southwestern Research Institute of Animal Husbandry and Crop Production. (Shymkent)
- Kazakh National University of Economics. Al-Farabi (Almaty)
- Institute of Geography (Almaty)
- School No.264
- No. 15 school-lyceum,
- Lyceum school No. 101im.A.Muslimova
- School No. 140 named after Abylai Khan

### **Scientific directions:**

- Biotechnology of animal reproduction. Endocrine hormones and the connection with the ecology of the Aral Sea region
- Peculiarities of growth, development and yield of perennial grasses in rice crop rotation in the Aral Sea region
- Improvement of the technology of production of livestock products
- Study of the production and biological characteristics of dairy cows in the conditions of the Aral Sea region
- Results of phytomelioration activities on the drained bottom of the Aral Sea region
- Purification of Syrdarya water with natural sorbents
- Improvement of drainage irrigation parameters in rice systems of the Kyzylorda region.
- Geoecological aspects of the formation of toponyms of the territory of the Kyzylorda region

### **Educational work:**

The main directions of the educational process are:

- Spiritual and moral, patriotic, legal education,
- Formation of religious literacy, education of political culture.
- The concept of the State youth policy,
- Strategy "Kazakhstan-2050",
- The role of religion in society and others.
